SCULPTURAL DESIGN TRANSCENDING NEW MATERIALS

101 Copenhagen's SS25 collection merges art and function, pushing the boundaries of sculptural design with innovative materials and craftsmanship. Influenced by organic forms, architecture, and minimalism, each piece tells a story of timeless beauty. At its core is a celebration of organic elegance. The Atsu Dining Chair, inspired by ancient Chinese designs, exemplifies this ethos with its FSC-certified solid oak construction. Its asymmetrical structure and minimalist lines showcase both sculptural form and impeccable craftsmanship. The Brutus Collection, now crafted in solid oak, continues its legacy of blending form and function. The Brutus Lounge Chair, paired with a Linen Cushion, balances striking design with luxurious comfort, highlighting the natural beauty of wooden grains. Lighting designs in the collection fuse sculptural shapes with material innovation. The Reflect Table Lamp, with its mirror chrome finish, becomes a dynamic centerpiece, while the Beetle Portable Lamp, crafted from translucent marble slabs, exudes warmth and mobility. The Maru Pendants blend geometric precision with bold sculptural aesthetics. Mouth-blown glass plays a key role, featuring new colours like Smoked Forest and Smoked Desert. From the architectural Crown Tables to the organic Wabi Vases, these designs transform under shifting light, creating a mesmerizing interplay of texture and form. The Temple Coffee Tables pair natural limestone tops with chrome bases, creating an illusion of floating rocks. The Phantom Coffee Tables now feature a matte aluminium Birch finish, adding warmth and tactility to interiors. For outdoor living, the collection offers bold, sculptural designs inspired by 1970s aesthetics. Upholstered in Sunproof fabric, each piece resists the elements while inviting relaxation with modular configurations and sand-toned covers. Interior objects emphasize utility and sculptural beauty, with new Sunao designs and additions to the Kogei Cutlery and Native Dinnerware collections, offering refined artistry for any setting. Each piece showcases 101 Copenhagen's dedication to transcending material boundaries, uniting art and function to create timeless, sculptural beauty.

ZEN-INSPIRED COMFORT: FOKU LOUNGE CHAIR BY KRISTIAN SOFUS HANSEN & TOMMY HYLDAHL MERGES SCULPTURAL ELEGANCE WITH TRADITIONAL JAPANESE AESTHETICS

The Foku Chair is one of the latest additions to the furniture collection and builds upon the sculptural approach to furniture design by Kristian Sofus Hansen and Tommy Hyldahl. Inspired by their travels in Japan, they drew inspiration from the traditional rake tools used in Japanese Zen Gardens for centuries. "Foku," meaning "fork" in Japanese, refers to the shape of these rake tools, which are used to delicately create minimalistic lines and waves in the sand or stone gardens. These lines have been reinterpreted into the fluted seat of the Foku chair, using special combinations of foam to ensure soft and comfortable seating. "We always strive to push the boundaries of shape and sculptural design, but we never compromise on seating comfort," says Tommy Hyldahl. The Foku Chair is available in tree Bouclé color options and two Sunproof, which offers resistance to stains, sunlight fade-resistance, and water resistance.

REDEFINED DETAILS AND MONUMENTAL SHAPES ROOTED IN THE SCANDINAVIAN SOIL AND NOURISHED BY JAPANESE MINIMALIST AESTHETICS

101 Copenhagen is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike. The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minima-

list aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom of expression - creating unique and timeless pieces without compromising on playfulness and individuality. An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyldahl and Kristian Sofus Hansen. Merging their backgrounds and

experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections. Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.

HANDCRAFTED MANUFACTURING PROCESS IS A METICULOUSLY CRAFTED JOURNEY THAT LENDS EACH PIECE OF FURNITURE AND VASE ITS OWN UNIQUE PERSONALITY.

Our handcrafted manufacturing process is a meticulously crafted journey that lends each piece of furniture and vase its own unique personality. Unlike mass-produced items, where uniformity is the rule, our creations embrace subtle variations and an organic texture that truly set them apart. This not only makes each piece one-of-a-kind but also resonates with discerning customers who appreciate the value of craftsmanship, individuality, and artistic expression in their living spaces. The cornerstone of our products lies in the 'organic roughness' a quality that truly distinguishes our furniture and vases. This natural imperfection arises from slight variations during handcrafting, which is not a drawback, but rather a signature trait that signifies authenticity and artistic

integrity. From inception to completion, our skilled artisans are deeply involved in every step of the process. Each piece undergoes multiple rounds of hand-painting, sanding, and shaping, making it a canvas of intricate artistry rather than just another piece of furniture or decor. This meticulous attention to detail results in characteristic colour schemes and designs that are uniquely our own. For those who seek more than just utility in their purchases, who see their surroundings as an extension of their individuality, our pieces offer that rare combination of form and function where each piece is not just designed but also 'sculpted' to life. These are not mere items of utility but tangible pieces of art, imbued with the touch of the human hand.

DESIGNING THE OUTDOORS: SCULPTURAL DESIGN MEETS ENDURING COMFORT We are thrilled to introduce our celebrated furniture designs, now reimagined for outdoor living. This collection combines bold aesthetics, inspired by 1970s futuristic and space-age design, with cutting-edge outdoor constructions and functionality. Upholstered in Sunproof, a high-performance fabric made from Olefin, these pieces are designed to thrive in outdoor environments. Resistant to rain, sunlight, and daily wear, Sunproof offers a sophisticated Warm Ash colour, a grey-beige texture that harmonizes beautifully with natural outdoor surroundings. To extend the life of each furniture, an outdoor cover is also offered in a complementary sand tone, ensuring each piece remain as impeccable as the day they arrived. At the heart of the collection is a commitment to sculptural design and luxurious comfort, redefining how we experience outdoor spaces.

SUNAO VASE SLIM

Sunao, the Japanese word for being honest, is all about the simplicity and timeless beauty of classic vase design. Embracing this spirit, the Sunao Vase Slim collection introduces a sleek, slender profile that complements the original Sunao's iconic shape. Each vase in this collection is crafted to fit seamlessly into any interior style and comes in three thoughtfully sized versions. The smallest size is a petite, decorative vase, ideal for single stems or small floral arrangements, adding a touch of subtle elegance to a bedside table, shelf, or kitchen nook. Moving up in size, the mini options provide a balanced presence, perfectly suited for coffee tables, console tables, or as a dining table centerpiece, able to hold fuller arrangements without overwhelming the space. The largest size transforms into an impressive floor vase, ideal for larger spaces such as living rooms, hotel lobbies, and grand entryways. These vases are crafted to hold larger branches or decorations, becoming statement pieces within the interior. Available in smooth, matte finishes of Birch and Black, the Sunao Slim vases are meticulously crafted from ceramic and hand-glazed to create a soft, tactile surface. This artisanal process lends unique character to each piece, with subtle color variations that make every vase distinct. With a fully glazed interior, Sunao Slim is not only beautiful but highly functional, as it's entirely waterproof and suited for fresh flowers, branches, or as a striking standalone sculpture. Rooted in simplicity and nature, Sunao Slim combines elegance and utility, serving as both a functional vessel and a timeless work of art in any space. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

Each Trumpet Table is meticulously formed from mouth-blown glass, where the material is heated to 1500 degrees before being shaped inside a custom mold. Air is then blown into the glass to achieve the iconic trumpet form, and afterwards taken out of mold to place inside an oven for tempering. Finally, the base is cut to stand even on the floor and the inner surface is spray painted to achieve the signature color. This beautifully crafted glass table is mounted onto a wooden base with internal metal support, enhancing both stability and durability. The Trumpet Table's sculptural presence and high-quality craftsmanship make it an elegant yet playful addition to both residential and commercial interiors, celebrating modern simplicity. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

Designed with versatility in mind, Beetle is fully portable, featuring a rechargeable battery and a dimmer with three adjustable light levels, allowing you to customize the mood. Its portability makes it ideal for various spaces around the home, whether perched on a bookshelf, placed in a window, or moved to different spots to cast a cozy glow. FOKU Inspired by the shapes of traditional Japanese garden tools, Foku is a full upholstery lounge chair made of simple geometric shapes merged into a sculptural furniture design. Foku meaning fork in Japanese, is a reference to the traditional rake tools used in Japanese Zen gardens for centuries. Several layers of carefully chosen foam types is combined to ensure a soft and highly comfortable seating experience, as well as emphasizing the sculptural and voluminous shapes of the chair. Combine several Foku Chairs to create a sofa lounge seating. Each Foku Chair includes two metal brackets, which can be mounted underneath the legs with a small screw.
