

In a world of clean lines and refined simplicity, Quax welcomes you into the timeless beauty of the Flow collection. A collection cherished by parents around the world. Here, minimalist design comes to life in all its glory, capturing the essence of peace and serenity.

At Quax, we understand that every consumer is unique, which is why we offer the Flow room in three beautiful colors: the timeless elegance of White, the rustic charm of Clay, and the softest hues with Honey Ash. With these choices, there's something for everyone.

Each color has its own character and can be effortlessly tailored to your personal style and room decor. Choose the color that best suits your vision and let the Flow room bring your dreams to life.

The 140x70 bed in the Flow collection is a symbol of timelessness and durability, evolving with your child through three remarkable phases. Starting as a cozy and secure baby crib, it provides comfort in early childhood. Then, as your little one grows, it can be transformed into an open bed, with the option of a safety rail for added security. However, the true magic unfolds with the junior kit, which elegantly extends the bed to 170 cm x 70 cm. Now, it becomes a versatile junior bed, complete with a bedside table for your growing child's dreams and adventures. The Flow Bed 140x70 embraces every stage of your child and reflects the journey of parenthood with a piece of furniture that stands the test of time.
